

AUSCAN Smart

Intelligent Diagnostic Scan Tool

SmartSafe Australia

A division of Launch Tech Australia

Website: www.smart-safe.com.au

AUSCAN Smart is an automotive intelligent diagnostic scan tool that supports ADAS calibration, anti-theft matching and programming, all system detection, and over 30 common maintenance functions. It also supports tyre tread detection, oscilloscope, multimeter, current clamp, videoscope, and other expansion modules.

ADAS Calibration

IMMO & Car Anti-Theft

Online Programming

**Car & Truck Diagnosis &
30+ Maintenance Functions**

Features

1. Whole system detection, supporting detection functions such as code reading, code clearing, data stream reading, and action testing;
2. Provide the topological graph of the whole vehicle, clearly display the vehicle communication network and quickly locate the fault point;
3. WIFI/Bluetooth dual-mode wireless VCI complies with the three major testing standards of D-PDU/J2534/RP1210, and supports DoIP/CAN FD communication protocol; 12/24V compatible VCI with remote diagnostic function.
4. It can be used with SmartSafe's full series of ADAS calibration main racks, covering ADAS calibration of European, American, Asian and domestic passenger and commercial vehicles;
5. Used with G3 module, it supports the anti-theft matching function of many European, American, Asian and domestic models, and more brands are being updated continuously;
6. Support 34 common maintenance functions.

Functions

- 1. ADAS calibration:** supports ADAS system calibration of many models in Europe, America, Asia and China, compatible with ADAS PRO+, ADAS MOBILE, ADAS LITE, ADAS RADAR 3IN1 and other equipment;
- 2. Car anti-theft:** support the anti-theft matching function of many models in Europe, America, Asia, China, and support the anti-theft programmer function (optional IMMO G3);
- 3. Vehicle detection:** support for code reading, code clearing, data stream reading, action testing, special functions and other full-system and full-function detections; Include passenger car and heavy duty truck software with 3-year free update.
- 4. Maintenance function:** support 30 common maintenance functions, such as maintenance light reset, throttle matching, brake pad replacement, steering angle reset, anti-theft matching, ABS bleeding injector coding, DPF regeneration, sunroof initialization, Gearbox matching, etc;
- 5. Test report:** support the display of ADAS calibration, fault detection, data flow and other reports;
- 6. Software upgrade:** Support online upgrades, including model software, firmware software, and APP software;
- 7. Module expansion:** support tread detection, oscilloscope, multimeter, current clamp, insulation test, endoscope, and other functional expansions.

Parameters

CPU	2.0GHz Octa-core
System	Android
Memory	4GB
Storage	128GB
Display Size	10.1inches(1920x1200)
Wi-Fi	2.4GHz/5GHz

Camera	Front 8MP、Post 13MP
Interface	Type A、Type C
Battery	3.8V/9360mAH
Working Temperature	0~45°C
Storage Temperature	-20~70°C
